🔧 FEATURES I AM PROUD OF

Template Editor 3.0 ☑

I collaborated with another backend developer over the course of eight months to develop a large and complex feature. I was responsible for implementing the designs, developing functionality, conducting testing, managing the project, and more. Below are a few screenshots showcasing only small parts of the feature:

Custom Inline Editor ☑

Drag & Drop Template Editing ☑

Room Upgrades ☑

I independently developed this one, handling both backend and frontend work.

Room Upgrades Editing ☑ Customize Page ☑

Tab Bar ☑

Another feature I developed by myself was a customizable and responsive tab bar (mobile navigation bar) designed for hotel guests to use within our guestbook web app.

Others Worth Mentioning

- Order Requests 2.0 ☑
- User Management ☑
- Customizable Digital Guestbook ☑
- Group Check-in Tool ☑
